

Quicker Sniffer - SF6 Leak Detector

GQ-IRLD

Handheld SF6 Leak Detector that contains a robust infrared sensor to accurately detect even the smallest SF6 leaks. Our leak detector is used by utilities all around the world to detect SF6 gas leaks.

NEXT-GENERATION SENSOR

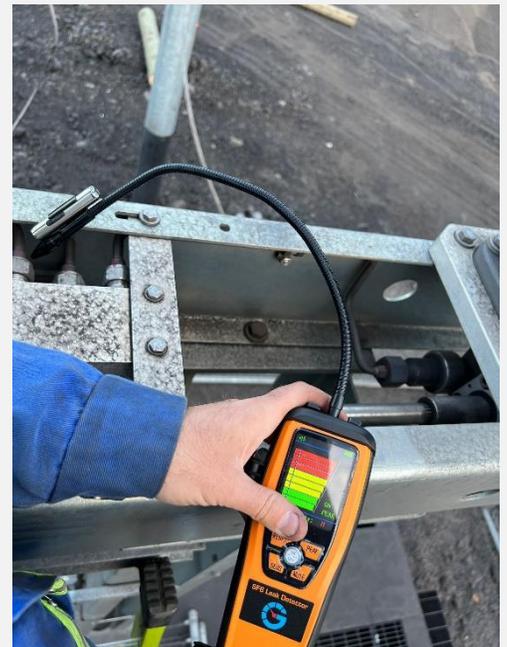

A robust infrared sensor performs better in windy & dusty environments when compared to a traditional heated diode or corona detector.

MULTIPLE SENSITIVITY LEVELS

Start the detector out on high sensitivity to locate the general area where the leak might be and lower the sensitivity as you get closer to pinpoint the exact area.

EXTENDED BATTERY LIFE

Built-in rechargeable lithium-ion battery allows for 6 hours continuous use.

SPECIFICATIONS

General

| | |
|-----------------------|----------------------------------|
| Measurement Principle | IR Spectrum Absorption |
| Power Supply | Micro USB |
| Sensor Life | 10 Years |
| Accuracy | ±0.05 %FS |
| Operating Temperature | -10°C to 52°C (14°F to 125.6 °F) |
| Adapters Material | Brass & Aluminum |
| Device Dimensions | 13" x 10" x 2.5" |
| Device + Case Weight | 3 Pounds |

Sensor Specifications

| | |
|----------------------|-------------|
| Measuring Range | 0-1000 PPMV |
| Detectable Leak Rate | 0.14 OZ/YR |
| Sensitivity | 5 PPMV |
| Response Time | <1 Second |

Accessories

| | |
|---------------------|----------------|
| Replacement Filters | GQ-IRLD-FILTER |
|---------------------|----------------|

Micro USB
